

Carbon Reduction Plan

..... *Supplier name:* Cemplas Waterproofing & Concrete Repairs Ltd

Publication date: 4th April 2025

Commitment to achieving Net Zero

Cemplas is committed to achieving Net Zero emissions by 2045.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: Mar 2021 – Mar 2022	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	173.24
Scope 2	2,545.89
Scope 3 (Incl. sources)	547.44
Total Emissions	3,266.57

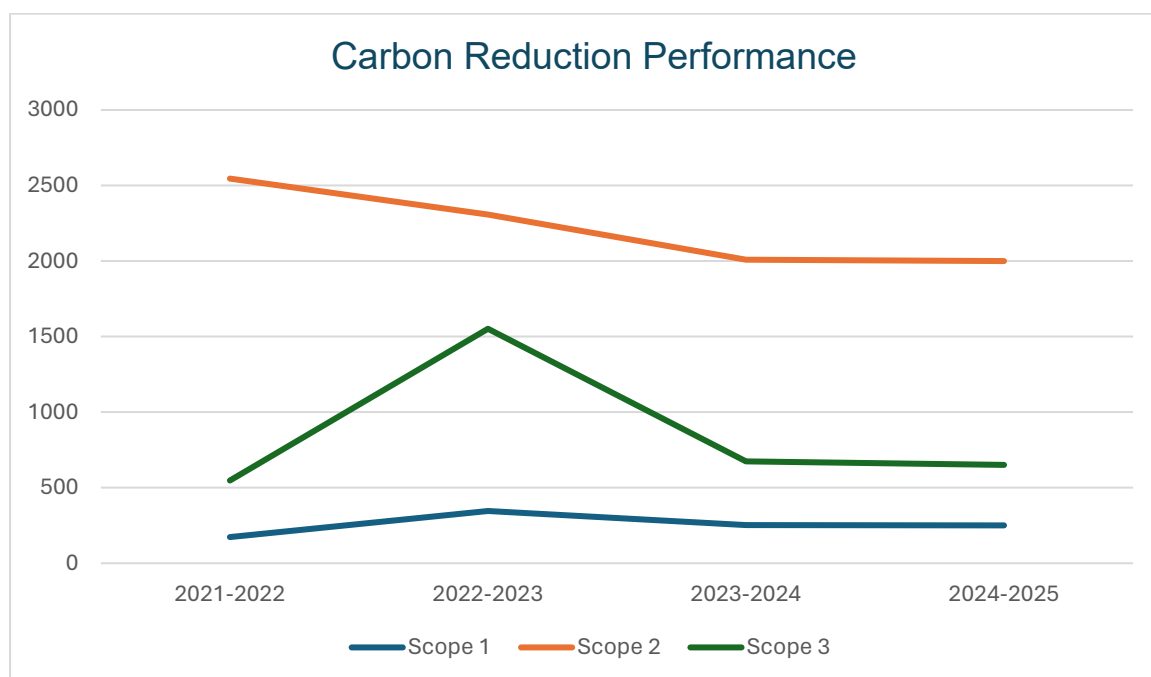

Current Emissions Reporting Year: Mar 2022 – Mar 2023	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	345.77
Scope 2	2,307.91
Scope 3 (Incl. sources)	1,551.90 (increase due to including aggregate, timber & overnight stays)
Total Emissions	4,205.58

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to 2102.5 tCO₂e by 2026. This is a reduction of 50%

Progress against our targets can be seen in the graph below:

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

- Our environmental management system certified to ISO 14001
- All waste generated is recycled where possible to reduce landfill.
- Use of online resources instead of printed materials where possible
- Use of the cloud to store documents digitally instead of paper files.
- Implementing awareness amongst our workforce of the impact of what we do has on the environment and how we can make better decisions to reduce this impact.

In the future we hope to implement further measures such as:

- Continue to educate our workforce to reduce their carbon impact both in and outside of work.
- Continue to meet requirements for our ISO 14001 standard.
- Continuously work to collect data on our emissions to aid in reduction.
- Work with landlord to discuss building improvements to reduce carbon impact.

- Reduce business travel emissions by car/van sharing and encourage the use of public transport where possible.
- Continue to recycle or re-use waste to reduce waste sent to landfill.
- Introduce electric vehicles where possible.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and GHG reporting protocol corporate standard and uses the appropriate government emission conversion factors for the greenhouse gas company reporting.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements and the required subset of Scope 3 emissions have accordance with the published reporting standard for carbon reduction plans and the corporate value clean (scope 3) standard.

This carbon reduction plan has been reviewed and signed off by Managing Director.
